

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The plan is original and peculiar, and cannot be adopted by any other Institution without contravening the enactments for the regulation of Joint Stock Companies.

INVESTMENT DEPARTMENT.

The object of this Department is to open secure and profitable channels of investment for the surplus Capital of the affluent, and the provident Savings of the industrial classes of the community; whilst it affords the means of realizing the highest rate of Interest yielded by first-class securities, in which alone the Funds are employed.

Persons desirous of depositing Money with the Association may do so with either large or small Sums, and increase the same at pleasure. A voucher, signed by two Directors, is given for every Sum deposited.

The rate of Interest upon the Investment Stock hitherto has been generally *Five per Cent. per Annum*, and this rate will continue to be paid so long as the Assurance Department finds the same safe and profitable employment for money.

Interest payable half-yearly in January and July.

Moneys deposited with the Association are exempt from liabilities on account of Life Contingencies, as well as the expenses of Management; therefore Stockholders enjoy the entire Profits yielded by their Capital—an advantage which no other Institution, either public or private, holds forth, or can afford, to its Members.

MUTUAL ASSURANCE.

Assurances may be effected from £50 to £10,000 on a Single Life.

Entire Profits belong to the Assured, and divided annually.

Credit for half the amount of the five first annual Premiums.

Medical Men remunerated for their Reports.

Liberty to Travel, and Foreign Residence greatly extended.

NON-PARTICIPATING ASSURANCES.

Assurances may be effected on the NON-PARTICIPATING PRINCIPLE at very low rates of Premium, payable in a variety of ways, to suit the circumstances and convenience of different classes of Assurers.

The Tables for Reversionary and Deferred Annuities are particularly deserving of attention, whether regarded as a means of providing for a particular individual, or as a resource against the casualties of age, and the uncertainties of health and fortune.

EXTRACT from the Half-Credit Rates of PREMIUM for an ASSURANCE of £100, without Profits.

	Age.	Half Premium first 7 Years.			Whole Premium after 7 Years.

THE HORSE.

THE celebrated Author of **NIMROD ON CONDITION** asserts that he never had in his possession a horse that ever suffered from worms, went blind or broken-winded; neither experienced lameness from thrushes, cracked heels, farcy, or humours; which he attributes mostly to the giving of such *alternative or phytic* medicine every two months, so as to excite a sufficient discharge by the skin, bowels, or kidneys, and thereby produce a regularity in the system. His great practical experience shows the necessity of administering such medicines (particularly to horses in work); and to meet this desired object, no more prudent medicine can be given than

GIBTON'S WORM AND CONDITION POWDERS, as a safe and certain remedy for destroying all species of worm, and removing and keeping back the above diseases. And particularly if given at this season, autumn, and in the spring, they will put the horse in fine condition for the coming season, and give him additional strength and vigour, purify his blood, and add a fine gloss to his coating; and may be administered without making any alteration either in food or labour; and as the horse will take these powders freely, the groom will have but little trouble in giving them.

Sold in boxes, with the Purgative Ball, at 3s. 9d., with a Treatise.

The Public are particularly requested to observe that the Signature of Robert N. Gibton is on each wrapper. Sole Wholesale Agent, W. Edwards, 67, St. Paul's, London, and by most respectable Chemists and Booksellers.

CORDING'S FISHING BOOTS and STOCKINGS, Knee Boots, Deck and Travelling Boots, Ankle Boots, Navy Shoes, and Goloshes, with the appearance of leather; they can be used at all times and in all climates, and are perfectly waterproof.

CORDING'S WATERPROOF DRIVING APRONS are warm, pliable, durable, and not liable to crack. They are far superior to leather, are much cheaper, and easily kept bright. Cording's Riding Aprons are a perfect protection to the saddle and knees, and may be carried in the pocket.

CORDING'S LABOURERS' and KEEPERS' CAPES, from 3s. 6d. each, or 40s. per dozen. Farmers, and all who employ out-door labour, will find more than the cost of a cape saved by a man not leaving his work when a shower of rain comes on, by their use. Colds, rheumatics, and doctors' bills avoided by their use.
